Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Double Patenting

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 1-23 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-4, 9, 11-27 of U.S. Patent No. 6,349,823.

Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims require similar features such as the combination of a cover, a package and an optic disc, wherein the optical disk situates within the package. The package has a top and a bottom layer and is sealed in two concentric circles. The inner circular seal surrounds an inner circular hole through the two layers and the outer circular seal extending in a circle around a

periphery of the optical disk. The package has an adhesive layer on a bottom surface of the bottom layer and is attached to the circular cover.

Drawings

3. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the paperboard box must be shown or the feature canceled from the claim 15. No new matter should be entered.

Claim Rejections - 35 USC § 112

4. Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Applicant in claim 9 positively claims an optical disk in the body of the claim and yet did not put the optical disk in the preamble. Appropriate correction is required.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 12 and 23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sfikas (US 4,549,658) in view of Official Notice. Sfikas discloses a package and a disk. The package

has a lower layer of flexible plastic material 10 and the disk is positioned on the lower layer. An upper cover layer 12 is sealed to the lower layer. An adhesive 42 on an y outer surface of the lower layer to facilitate fixing of the package to a substrate 50. A peel off liner 44 is fixed to the adhesive. Although Sfikas shows a mini disk, it would have been obvious to substitute an optical disk for the mini disk to store within the package for transport.

7. Claims 13-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over the references applied above with respect to claim 12, further in view of Francois 690,253). Sfikas as modified above does not disclose a central seal area. Francois teaches a package with upper and lower layers of flexible materials. The upper layer is sealed to the lower layer at an inner circular seal 22 to form a hole for receiving an object. Since the package has been modified to receive an optical disk, it would have been obvious in view of Francois to inner sealed section to receive an object therethrough to display the package.

Allowable Subject Matter

8. Claims 1-8, 15-22 would be allowable when applicant overcomes the double patenting rejection. Also, claim 15 has to overcome the drawing objection.

9. Claims 9-11 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and overcome the double patenting rejection.

Conclusion

10. Telephone inquiries regarding the status of applications or other general questions, by

Art Unit: 3728

persons entitled to the information, should be directed to the group clerical personnel and not to the examiners. In as much as the official records and applications are located in the clerical section of the examining groups, the clerical personnel can readily provide status information without contacting the examiners, M.P.E.P. 203.08. **The Group clerical receptionist number is (703) 308-1148 or the Tech Center 3700 Customer Service Center number is (703) 306-5648.**

If in receiving this Office Action it is apparent to applicant that certain documents are missing, e.g., copies of references cited, form PTO-1449, form PTO-892, etc., requests for copies of such papers should be directed to Donna Monroe at (703) 308-2209.

For applicant's convenience, the Group Technological Center FAX number is (703) 872-9302 and for After Final Amendment the number is (703) 872-9303. This practice may be used for filing papers not requiring a fee. It may also be used for filing papers which require a fee by applicants who authorize charges to a PTO deposit account. Please identify Examiner Luong of Art Unit 3728 at the top of your cover sheet of any correspondence submitted.

Inquiries concerning the merits of the examination should be directed to Shian Luong whose telephone number is (703) 308-2039. The examiner can normally be reached on T-F from 7:00am to 4:00pm EST.
